

RISCO Group's E-News April Edition

Hello and welcome to our April E-News. We hope you enjoy reading our newsletters. If you have any stories or news about your company you would like to be included, please let us know.

IFSEC 2010 - RISCO Group Stand D10, at the entrance of Hall 4

Visitors to RISCO Group's stand will be able to experience the **SynopSYS** Integrated Security & Building Management Platform, **ProSYS FreeCom** Security System powered by **RISCO Bus** and **TouchScreen Keypad** (now in black or white), and new **LuMIN8** sounder with Logo Illuminator. RISCO Bus Platform saves installation time and money while enabling remote services. iWISE Bus Detectors include an extra zone input that allows the convenient addition of a door/window contact, thus saving on the wiring back to the panel.

Also not to be missed is the **Agility 2-Way** Flexible Wireless Solution with new Wireless Barrier Beams. Agility features plug-in communication units, allowing flexibility to select all or any of the IP, GSM/GPRS, and Fast PSTN communication methods. Agility's wide range of accessories for Security, Safety and Home Automation are joined by innovative **Wireless Barrier Beams** for outdoor perimeter protection.

RISCO Service Platform (RSP) delivers the power of Software-as-a-Service (SaaS) to the security world, reducing total cost of ownership and offloading IT overhead. RSP is a single environment for all Access Control, Video Surveillance and Alarm needs, and will be exhibited for the first time at IFSEC with **Axes Plus** Access Control Solution.

If you haven't already registered to attend IFSEC please [click here](#) to go the IFSEC website and click on the 'Register Now' button. Entry is free of charge if you pre-register.

**IFSEC2010**10 - 13 May 2010
NEC Birmingham

THE MEETING PLACE FOR THE SECURITY INDUSTRY

New LuMIN8 External Sounder with logo illuminator *Put your logo in the spot light with LuMIN8*

RISCO Group launches LuMIN8, a professional twin piezo external sounder with a logo illuminator. The LuMIN8 sounder uses a patent-pending spotlight to illuminate your logo at all hours, advertising your business even on the darkest of nights.

Powered by the RISCO Bus technology, the LuMIN8 supports remote servicing when installed on a RISCO Security System, saving time and money on installation and maintenance.

LuMIN8's strobe and logo illuminating spotlight both employ an innovative Surface Light Technology (SLT™) in which light is emitted from surface mount LED's that use less power, are more robust and have much longer lifetime than xenon or halogen lamps.

PSI Awards 2010

RISCO Group have been nominated as Finalists for the Intruder Manufacturer of the Year Award and also for the Product Innovation Award with the RISCOBus. It is you, the installer, that nominates for the Award winners, and RISCO Group would like to thank you for your getting us to Finalist stage at the PSI Awards, and for your continued support with RISCO Group.

Voting for the actual winner is now taking place, please click on the **VOTE NOW** logo to be directed to the PSI website and to see the list of Finalists, and of course, to vote for your preferred winner.

Electronics Line 3000

RISCO Group have acquired a controlling interest in Electronics Line 3000 Ltd, a provider of security solutions for the residential and small commercial market.

RISCO's intention is to maintain Electronic Line's independent operations and product offerings, and to grow it to become the residential arm of RISCO Group by expanding the product portfolio into video and management solutions together with its major partners worldwide.

Save time and money with ProSYS.Freecom Bus detectors

Save on cabling, save on labour, save on zone expanders, save on-site maintenance, run our unique bus test. **Click on the RISCOBus logo to see for yourself** and click on 'calculate your savings' to download the RISCOBus calculator to work out time & money you could save on your installation.

Technical Update Agility Configuration Software

Version 1.0.2.12 Agility configuration software has been released and is available for [download](#) from our website.

This version includes implementation of new features that were requested by you, our customers.

- Improved communication between the software and the panel for all communication paths - IP, GPRS, GSM Data, PSTN & Direct cable
- Easier remote upgrade operation
- Simple GPRS communication establishing (automatic SMS sending)
- Support of sounder and follow-me events per partition
- Option to disable GSM and IP in the event of network issues
- Translations and defaults are set by customer ID
- GUI improvements
- Support for shared database for multiple users

B.S.A. (Bath) Ltd sponsor Bowling Club

B.S.A. (Bath) Ltd sponsor Alexandra (Bath) Bowling Club, and as they use RISCO's XS3D bell, B.S.A. have also included the bell image on all the club shirts and the club signage. Thank you Len Gunstone, B.S.A.'s MD, for sending through your picture, and thank you for your continued loyalty to RISCO Group.

Staff Corner

20 years service at RISCO Group

Barrie Clucas, RISCO's UK Warehouse Supervisor, has been a very loyal and hardworking member of the RISCO family for 20 years.

Barrie has contributed to the many changes and development of the business, and has been an example to us all with his work ethic, flexibility and contribution to company objectives, but above all he is a genuinely nice guy who we are privileged to have in our team.

Well done Barrie and congratulations!!
