Hello James,

I'd like to just take the opportunity to say thank you for taking the time to meet with me last week over your WEEE compliance. You can trust me when I say that in my 3 and a half years of compliance experience Risco really do stand out as one of the most thorough businesses I have ever visited. In fact if every business was as compliant with the WEEE regulations as Risco I would very quickly be done out of a compliance job. Yourself and the technical team should be very pleased with yourselves.

I've attached a copy of the audit below for you to read through. If you have any questions or anything else that you would like to add then please just let me know.

Regards,
