Dear Risco Group.

I will just like to put in to writing how we have found dealing with Risco Group, We have only have been dealing with your company since April 2008 and we have had a wonderful experience, Rebecca Sanderson first called us to Enquire about what your company could do for us and through her product knowledge and fantastic customer service we started to use your products. we have found your delivery service to be quick and efficient and your products easy to install and very reliable we are looking forward to growing our relationship with Risco Group.

On a hole as a new customer to Risco Group we couldn't be happier with the Service and Products.

Kind regards.

regards, Dave Holland
