Dear John,

RE: Wisdom Wirefree Alarm Systems

We have been installing Wisdom systems for almost two years and have found that they are easy to install, simple to program and have a great range of features not found in other panels. With almost 2000 Wisdoms fitted to date we are delighted by their ease of operation and their overall reliability. The backup that the Risco Group provide us with, we consider being one of, if not the best in the industry.

Get wise, get Wisdom.

Regards

Steve Smith  
MD
